Summary

As a Senior UX/UI and Product Designer with 1.5+ years of experience designing user-centered digital products for web and mobile platforms. Currently, I contribute to 40+ client projects at BDCalling IT Ltd., creating scalable Figma-based design systems used in production and intuitive experiences. My experience with React, Python, and Django helps me collaborate effectively with developers and deliver thoughtful, high-quality products.

Experience

 Sr. UX/UI Designer Feb 2025 – Present Sparktech.agency Full-time · Dhaka, BD	- Led UI/UX design for 40+ web and mobile products simultaneously, maintaining consistency across all client verticals and product types. - Built reusable Figma component libraries and shared design system — reducing per-project design setup time by an estimated 50%. - Produced dev-ready specs and interactive prototypes; collaborated with engineers to eliminate handoff friction and reduce revision cycles. - Conducted user research, journey mapping, and usability walkthroughs before each sprint to validate design decisions with evidence.
 UX/UI Designer — Intern Sep 2024 – Dec 2024 CPSD Technology IT Internship · 4 months	- Designed wireframes, user flows, and high-fidelity prototypes — including a complete academic institution website from brief to handoff. - Applied user-centered design methods under real production timelines within an Agile sprint team environment.
 Python Django Intern Nov 2024 – Feb 2025 EDGE Project, BCC – ICT Division Govt. Program · 3 months	Completed a government-certified 80-hour Python Django program (IIT, Jahangirnagar University) — building full-stack web apps with MySQL.
